ETHIOPIA / GORI GESHA

Barda Gesha Coffee

Company profile

Barda Gesha Coffee One Member PLC

Barda Gesha Coffee One Member PLC is developing a coffee project in Gori Geisha, West Omo. Its plan connects nursery development and cultivation with future processing and coffee supply, supported by a head office in Addis Ababa.

Founder: Dr. Kibebu Kinfu Berta

Planned land use

200	160	40
hectares	hectares	hectares
Total project area	Coffee plantation	Infrastructure & buffers

Across the 200 ha project area (160 ha planned plantation, 40 ha support areas), 44.7 hectares are covered by coffee of different types such as K 1, Geisha Bronze and Geisha Green Coffee. Diagram is schematic.

Wesh · Gori Geisha · Ethiopia

1,300–1,500 m · Site elevation above sea level

Three varieties. One project.

44.7 hectares were covered by coffee of different types such as K 1, Geisha Bronze and Geisha Green Coffee. Harvest availability and cup profiles will be shared when verified.

Project plans are not evidence of completed development or current harvest availability.

The development journey

Explore the four stages in our operational plan. Timing is relative to project mobilization; these stages are not a report of completed work.

1

Mobilization

Months 1–3

Lay the foundations for a coordinated coffee project.

2

Nursery & infrastructure

Months 3–6

Prepare seedlings and the practical systems that support the farm.

3

Field planting

Months 6–12

Move from nursery preparation to establishing the coffee plantation.

4

Consolidation

Year 2 onward

Build consistent care routines and plan the next steps in processing.
